

HIKING WITH A DOG

HIKING HAPPINESS WITH YOUR DOG

What could be nicer than to have your four-legged friend by your side on a hiking holiday? Our marked tours are put through their paces for their 'dog suitability' and safety is always the top priority. The routes and accommodation are always dog friendly. With good preparation and observance of the essential instructions, nothing stands in the way of an enjoyable hike for two and four-legged friends.

OUR RECOMMENDATIONS AT A GLANCE

■ Muzzle and leash obligations

Please inform yourself about possible muzzle and leash obligations before you start your vacation. Different regulations apply depending on the country, region and municipality.

■ International regulations

For starters, every dog must be registered and chipped. Please familiarise yourself with the country-specific entry regulations with regards to possible mandatory vaccinations and the necessary means to protect against ticks and mosquitos in the destination in good time. Tip: Carry your dog's vaccination certificate with you when you travel.

■ Hygiene

As a dog owner, you are responsible for leaving hiking trails clean. It is always advisable to have a bag with you.

■ Animal alpine dwellers

Watch out for grazing cattle in the area during your hike. A direct encounter between dog and, for example, a cow or horse should be avoided.

PAW FRIENDLY HOTELS AND ACCOMMODATION

Our selected Eurohike tours are absolutely paw-friendly and so it is very important to us that both two-legged and four-legged friends feel particularly comfortable in the accommodation. We ask you to let us know the breed and size of your dog when booking. We register your companion into the accommodation using this information.

OUR MOST POPULAR HIKING TOURS WITH DOGS

Our holidays, which are specially marked with a paw, are guaranteed to be dog friendly. They promise hiking pleasure for people and animals – the most beautiful way to go on holiday! From Austria, Germany, Italy, France, Croatia and Switzerland, you have a colourful selection of destinations for hiking with your dog.
